P

I have just arrived home from Buffalo where I spent a little over two weeks supplying the pulpit for Bro. Gordon Bender, my old classmate and fellow-worker in the early days of my ministry. Since I last met with you I have been home so little that I have not had opportunity to meet with you again and give a verbal report of my visit to Headquarters. I did give a verbal account to the Pastor and three members of the Board in the hall at Highway but perhaps a letter to you will give you all a summary of what happened.

Nest La Bro. Perkin was very sympathic to each ones viewpoint. Loss. He repeated verbally what he had previously written me, i.e., that I the Missions Committee felt that perhaps we could repay the Missions Department for the \$1000.00 advanced us. On our part we expressed our opinion that you as a church had provided us with \$1000 of our fare and as we had also served Headquarters in the capacity of Suerintendent that they too should bear part of our return fare. Bro. sh Perkin pointed out that it was not customery for missionaries to grate return by air and usually the various Societies allowed so much for fares and the individual made up any deficit should he travel in a different way. We in turn felt that if our Society was feeling it wise to send new workers to South America by air, as has been done, then we felt that workers who had already spent the best years of their lives in Africa should be given the same consideration. I further pointed out that we had invested over \$1200 of personal funds left me by my Father into the work in Africa and that the whole expense of the short Survey Trip in 1930 which secured Government permission for us to open work in the Gold Coast was met by us from personal funds. Brother Perkin had been under a different impression. is our sincere desire that we will be able to settle down in a postorate in the near future.

We then asked about rent allowances permitted missionaries on furlough. Bro. Perkin had written on this subject in a circular letter to missionaries on furlough. He said that the allowance permitted us in case of need would be \$270. We asked if we could not forego the privilege of drawing this and having it applied to the \$1000, Headquarters had advanced us and we in our turn would arrange to pay our own rent whenever we get our own living quarters.

After a general discussion of the whole matter Bro. Perkin told us that he was sure that the Committee would agree to consider the matter closed and that we need feel under no obligation to them to repay the money advanced us.
