

ing face-to-face with her. I looked heavenward. "My heavenly Father, I thank Thee for healing me and I accept it now in Jesus' name." I waited. The young lady cried out. She saw the eyes slip into place! Then she started forward to shout aloud, "It's a miracle! I've seen a miracle!" I turned my head. Instantly every object, every feature, every fine line—to the end of the hallway—came into perfect focus. The misty, impenetrable veil was forever lifted.

From that day to this, my eyes have been perfectly normal. I have never worn glasses since. The same doctors who said my eyes were incurable have tested and proven that I have normal vision.

That devastating damage to the optic system when I was only eighteen months old was with me through all those years. I was constantly under medical care, but to no avail. In one instant God healed me, and my eyes are simply wonderful. To GOD BE THE GLORY. GREAT THINGS HE HATH DONE.

# The Story of My Healing

BY

**LILLIAN WATTERS**

AN EIGHTEEN MONTHS OLD BABY FELL DOWN AND STRUCK her forehead. The crushing blow caused many years of heartache and hopelessness. Then—miraculous healing. I was that baby and this is the miracle story:

Not long after the fall, my right eye slid under the eyelid. All that could be seen was the white part of the right eye. My parents took me to the famous Wills Hospital, Philadelphia, Pennsylvania (where I was born and reared). The doctors explained that the blow to the head had severely damaged the optic system. They could offer no cure for the affliction. But eventually they prescribed strong lenses for me at the age of three. The dreadful condition persisted.

At age six I entered public school. After about three weeks the teacher discovered I was so nearly blind I could not remain in class with normally sighted children.
