

# THE TWO-FOLD INVESTMENT

*"Lay up treasures in heaven . . ."*

MATTHEW 6:21

PERHAPS there are not as many people who think in these terms as there should be, but forethought will well justify the conclusion that spiritual investments pays the greatest dividends. In fact it is the only permanent investment. Accumulation of this world's good at best can only serve their intended purpose for a few years then must be left behind. There are no profit margins that reach beyond the tomb. Tangible assets only take on eternal characteristics through worthwhile investments in the kingdom of God. Repeatedly, therefore, Jesus emphasized the wisdom of laying up our treasures in heaven.

Factually investment, with right motives, in church bonds is a two-fold investment with satisfactory returns for time—and inestimable returns throughout eternity. Where can better investment be made?
