

GOSPEL WAGON OF THE HIGHWAY MISSION TABERNACLE.

men and young women and a mixed adult Bible class, also a flourishing Primary department.

The sessions of the school held at 2 P.M. on Sabbath are devotional in character, all unnecessary machinery being dispensed with, that the study of the Word may be made the principal feature.

The Gospel Wagon.

"Go ye therefore into the highways."—MATT. 22 : 9.

This, the original work of the organization, from which all the rest has grown, is now (September, 1899) in its fifth season.

The large, beautiful wagon, built for this work, at a cost, including equipment, of about seven hundred dollars, possesses many special features and is thoroughly equipped with every appliance for the most effective outdoor service. It is sixteen feet long, six and a half feet wide, and carries comfortably twenty-five workers. It is provided with suitable benches and folding chairs, an organ, bright electric lights from storage batteries, etc. A speaker's platform, with railing, may be quickly thrown out from one side.

The results of these services will never be known here. Thousands have heard the Gospel from the wagon, hundreds have asked for prayer, and many remarkable conversions have occurred. No collections are ever taken on the street.
