

The Sunday School

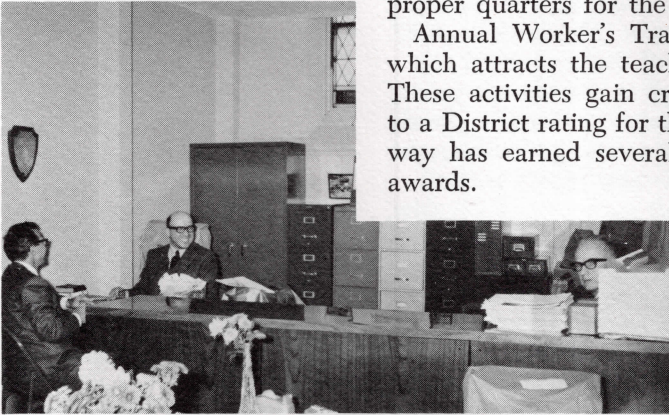

From its very beginning, Highway Tabernacle has realized the importance of reaching the children and the youth for Christ.

Growing in numbers as the years have passed, the Sunday School Department today is equipped to accommodate the entire range of ages from the infants in the Cradle Roll Division to the Adult classes. During Brother Steelberg's ministry the Sunday School was departmentalized, with the various groups arranged in accordance with the National Sunday School Standard of the Assemblies of God.

Monthly worker's conferences are held to discuss the many matters pertinent to the efficient operation of the Department, each teacher and staff member given the opportunity to present the special needs of their particular area.

Under Brother Roberson's ministry, the entire north section of the church building was reconstructed to provide modern, air-conditioned class rooms and a beautiful chapel. The Sunday School office has been equipped to provide proper quarters for the Staff.

Annual Worker's Training Courses are held, which attracts the teachers and staff members. These activities gain credits which are applied to a District rating for the Sunday School. Highway has earned several silver and gold crown awards.
